1.0 PURPOSE

The purpose of this section is to provide a means to incorporate into and maintain current PPP safety incentive programs in the PPP Health & Safety Program. This will allow all employees with access to controlled copies of the Health & Safety Program to be able to more easily review rules and procedures of current incentive programs. It also gives others that receive copies of the PPP Health & Safety Program a perspective of PPP's commitment to the Zero Injury Philosophy.

2.0 SCOPE

This section contains, as attachments, PPP safety incentive programs currently in effect.
